BOOST YOUR PRODUCTIVITY

Save yourself the cost of purchasing a new dental unit and increase your performance by being able to treat a greater number of patients. The functionalities of the iOptima application and the performance of Bien-Air electric instruments combine to significantly reduce the time taken for your procedures.

Simply connect your 4-hole tubing to the iOptima console and transform your unit into a formidable system in a flash. Download the iOptima application and you are ready to go.

INNOVATIVE
AND USER FRIENDLY

iOPTIMA APP

For all your restorative and endodontic procedures, the iOPTIMA application now offers numerous preprogrammed and customizable options. Quick, efficient and seamless.

Free app upgrades

iOPTIMA application is undergoing constant development and updates, ensuring that new innovative functions are added regularly.

- Ergonomic and intuitive Apple® iPod touch interface
- Pre-programmed restorative procedures
- Pre-programmed endodontic sequences from major manufacturers
- Creation and configuration of your own procedures
- Auto-reverse and Auto-forward endo functions

BETTER
PATIENT SAFETY

MX2 LED MICROMOTOR

The Bien-Air MX2 LED micromotor offers the best performance on the market by simplifying and optimizing restorative, prophylaxis or endodontic procedures. The SMART LOGIC electronic management system automatically controls the power and maintains constant speed.

No maintenance necessary, thanks to the brushless sensorless technology and life-time lubricated ball bearings.

MICRO-SERIES CONTRA-ANGLES

Used together, the MX2 micromotor and Micro-Series contra-angle are no larger than a turbine. This reduction in size ensures perfect balance by greatly reducing the effort required to hold the handpiece. Ensuring less fatigue at the end of the day.

Bien-Air CA 1:1 L and 1:5 L Micro-Series contra-angle

Perfect for all high and low speed procedures. Vibrations and noise are cut in half while providing the additional benefit of high power and constant speed.

EVO
CERTIFIED

- Micro-Series, 30% shorter & 23% lighter
- Anti-heating system ensuring patient safety
- The world's softest push-button
- 50% brighter lighting thanks to multi-strand optical glass technology
- Six separate air and water spray nozzles

MICRO HEAD 8:1 ENDO

Bien-Air CA 8:1 Endo contra-angle is designed to work with shorter Endo file shanks. Offering unparalleled visibility in molar areas, its small head provides the ideal solution for rotary endodontic procedures.
